This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world’s books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that’s often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book’s long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

+ Make non-commercial use of the files We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.

+ Refrain from automated querying Do not send automated queries of any sort to Google’s system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.

+ Maintain attribution The Google “watermark” you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.

+ Keep it legal Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can’t offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book’s appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

OF

BRADFORD

MASSACHUSETTS

TO THE END OF THE YEAR 1849

TOPSFIELD HISTORICAL SOCIETY

EXPLANATIONS

The following records of births, marriages, and deaths, include all entries to be found, in the books of record kept by the town clerks (no records of intentions of marriage before 1850 are preserved in the custody of the Haverhill city clerk, nor has extended search brought them to light in private hands); in the church records (which are very imperfect); in the returns made to the Salem Quarterly Court; in the cemetery inscriptions; and in private records found in family Bibles, etc. These records are printed in a condensed form in which every essential particular has been preserved. All duplication of the town clerks' record has been eliminated, but differences in entry and other explanatory matter appear in brackets. Parentheses are used when they occur in the original record; also to show the difference in the spelling of a name in the same entry; and to indicate the maiden name of a married woman.

When places other than Bradford and Massachusetts are named in the original records, they are given in the printed copy. Marriages are printed under the names of both parties. Double dating is usual in the months of January, February, and March, prior to 1752, whenever it appears in the original and also, whenever from the sequence of entry in the original the date may be easily determined. In all records the original spelling of names is followed, and in the alphabetical arrangement the various forms should be examined, as items about the same family may be found under different spellings.
BRADFORD

The territory included within the limits of Bradford was originally a part of Rowley and was first known as "Merrimac Lands," and "Rowley Village by the Merrimack," and then as "Merrimack," which name was changed to Bradford at a town meeting held Jan. 7, 1672, in memory of Bradford in the West Riding of Yorkshire, England, several of the settlers having emigrated from that place.

At a session of the General Court held May 27, 1668, it was recorded: "In ans' to the petition of the inhabitants of Rouley liuing ouer against Hauerill, the Court, haung considered the peticon, pervers the towne of Rouleys grant to the petitioners, heard Rouley deputy, and also considering a writing sent from Rouley, wth what els hath been presented in the case, doe finde that there is liberty granted the petitioners by the towne of Rouley to prouide themselues of a minister, & also an intent to release them from their township when they are accordingly prouided, and therefore see not but this Court may grant their petition to be a township, provided they doe gett & setle an able & Ortho- dox minister, & continue to majntejne him, or els to remaine to Rouley as formerly."

The first town meeting was held in 1668, the "orthodox minister," Rev. Zechariah Symmes, of Charlestown, already having been secured. The meeting house was erected in 1670. The town first paid a colonial tax on October 13, 1675.

On March 8, 1850, part of its territory was set off and incorporated as the town of Groveland.
BRADFORD

On January 4, 1897, the town of Bradford was annexed to the city of Haverhill.
